

If you know anyone who suffers from ASD, please personalize this prayer by using their name in the appropriate places.

Prayer to Heal Autism

Lord, I declare that the healing of Autism Spectrum Disorder is not too big for you. I bless and proclaim your power over all brain issues.

In Jesus name, I command the emotional brain (limbic system) to function normally. I proclaim that each person suffering with Autism Spectrum Disorder will experience your love and the love of others. I decree that they will be able to lovingly connect to themselves and to those around them.

In Jesus name, I command the mirror neurons to function as you created them to function. I declare that they will find pleasure in relating to others. I say that they will feel your divine protection and have normalized fear responses.

Jesus, I am counting on you to change the brain chemistry of all those with Autism Spectrum Disorder. In Jesus name, I command asopressin to normalize and the hormones androgen and testosterone to balance for normal growth and socialization.

I declare normalization of sleep patterns. I release the shalom of God over them.

Lord, I believe you will heal all brain connectivity abnormalities. Lord, filter the information coming in through the senses to reveal the truth of who you are, Father God. Holy Spirit, create a divine filter for them so they find meaning and value in their experiences and are able to make decisions based on your truth and your value system. Show them how to prioritize information in healthy and helpful ways.

In Jesus' name, I command that any deletion or duplication along the DNA strand, especially at chromosome 16 be corrected now. Father, if there was any trauma in the first two trimesters of life, would you go back in time and heal any disruption to normal fetal development.

I declare that you, Jesus, are stronger than any demonic interference in their lives, and break, shatter, dissolve, and destroy all demonic attachment to them. In Jesus' name, I call back everything that has been stolen from them and command restoration of anything missing.

I break all shame and guilt off of parents. Jesus declares, "It's not your fault." Jesus, comfort them, encourage them, and give them hope.

In Jesus' name, I decree and declare normal brain function, development, and socialization.

Amen.
